## I. INTRODUCTION

National Center for HIV/ AIDS, Dermatology and STDs (NCHADS) was established in 1998 within Ministry of Health. Many stakeholders and partners are currently working with NCHADS to implement the HIV/ AIDS prevention care and treatment in Cambodia. A lot of books include Policy, Strategy, Guideline, and Standard Operational Procedure... etc were produced in order to manage all these resources properly and effectively. Book Inventory Management System Database had been set up to record all those resources for using as guidance and reference. Moreover, this database system can let to find out the book as quickly as we need and update the new coming books.

## II. DATABASE MANAGEMENT SYSTEM

### 1. Book recording and inventory

This database has been set up in Excel Program; it was called **Book Inventory Management System**.

**Book Code Setting:** In order to find out books as we need, it was designed based on coding format as below:

#### **NCHADS- PMR- GF- 030102**

- NCHADS: name of the institution
- PMR: is name of NCHADS Units.
- GF: It means the book which was recorded by GFATM Management Team
- **03** : Year of the published book
- **01** : The number uses instead of Book Series.
- **02** : The order number of books entry into Database.

*See Annex A*

### 2. Database recording information

The following information was recorded based on the coding format above.

- Date received
- Book Code
- Book Name
- Number of book
- Book Series
- Department
- Sources
- Remark
- Number of flow out
- Balance

## III. HOW TO CONTROL THE BOOKS

1. **The way to find books:** The registered books were stored in the bookshelf and arranged by Book Series and Year.
2. **How to control the flow in and flow out of the books:** All flow in and flow out of the books will be recorded into database and updated.

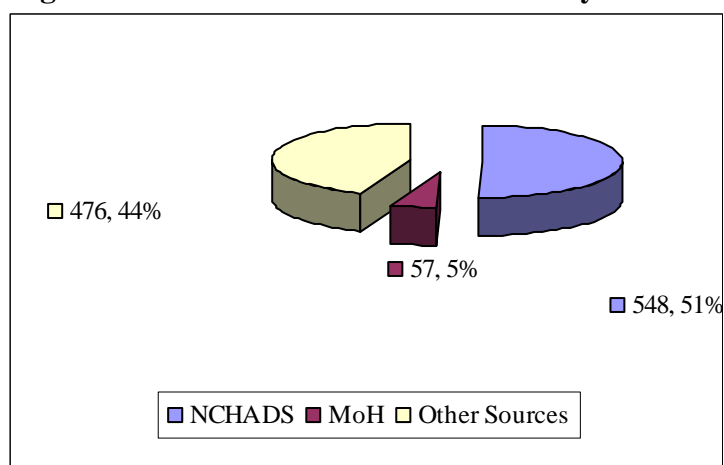

#### IV. DATABASE REPORT

All the books were recorded into database that classified according to the book Series, NCHADS Units, departments, and others sources which will be reported every semester. *See Annex B*

#### V. DATABASE INFORMATION IN SEMESTER 2 2008

As of December 2008, 1081 books were recorded by GFATM Management Team. 548 (51%) books were produced by NCHADS, 57 (5%) have been received from different departments of Ministry of Health, and 476 (44%) from others sources.

**Figure: Numbers of books are classified by sources.**

**Table1: Numbers of books are classified by NCHADS units.**

N°	NCHADS Unit	Number of books	No of Items
1	Admin Unit	20	14
2	AIDS Care Unit	123	56
3	BCC Unit	23	13
4	Finance Unit	4	3
5	Logistic Unit	23	12
6	PMR Unit	784	417
7	Procurement Dep.	22	12
8	Research Unit	0	0
9	STI Unit	14	10
10	Surveillance Unit	38	17
11	VCCT Unit	30	17
<b>Total</b>		<b>1081</b>	<b>571</b>

## V. SOURCES OF FUND

There were 47 capacity building activities (Training, Refresher Training, Meeting and Workshop) funded by GFATM.

## VI. CONSTRAINTS

- The standard attendant lists were just used in January 2009, so some information of participants/trainees is limited.
- Follow up the participants' information on standard attendant lists.

## VII. LESSON LEARNT

- Continue having good collaboration and support from other relevant units and funding sources to obtain training information is crucial.
