## I. INTRODUCTION

National Center for HIV/AIDS, Dermatology and STD (NCHADS) was established in 1998 within Ministry of Health to respond the National HIV/ AIDS, STD Prevention, Care and Treatment Program. NCHADS is closely working with Provincial Health Department, relevant governmental institution, NGOs and other health partners to ensure the efficiency and effectiveness of the program and reach the objectives of NCHADS Strategic Plan for HIV/AIDS and STI Prevention and Care. To implement the set programs above, there are many activities conducted such as 100% condom use program, outreach program, special STD clinic in the prevention area, home based care, VCCT, and also human resource development. To strengthen capacity of health care staff, NCHADS has organized many training, workshop, and meeting activities to provide knowledge on HIV/AIDS Care and treatment and prevention. Meanwhile, NCHADS has been set up **The Capacity Building Activity Database** to monitor the human resource development in the health care area.

## II. OBJECTIVE

- To monitor health care staffs who have attended the capacity building activities of HIV/AIDS care and treatment in order to ensure the efficiency and effectiveness of program implementation.
- To use the information recorded in this system as a benchmarking for developing suitable time frame of capacity building program based on guideline, standard operational procedure (SoP) and NCHADS Strategic Plan.
