Voluntary Confidential Counseling and Testing Services

November
2005

National Center for HIV/AIDS
Dermatology and STD

Preface

This directory of the Voluntary Confidential Counseling and Testing (VCCT) provides necessary information of the address and contact persons who work for the VCCT for the government, NGOs and privates that currently provide the VCCT services through out the kingdom of Cambodia.

This booklet is developed to help someone who needs the VCCT services and to guide them to find the services easily. The address and the contact information are available to encourage people who needs counseling and testing services or who needs to know any or more information regarding to the services.

The services are voluntary, confidential and free of charge for the public services. People can find the services in daily activities. Testing result can be gotten in the day of the blood taking. Pre and post-test counseling and supportive counseling are provided before and after the blood testing for HIV/AIDS.

HIV positive testing result can be referred to the health institution for care, treatment such as OI prophylaxis, ARV treatment and support services.

The National Center for HIV/AIDS, Dermatology and STD hopes that this address booklet will be useful for the HIV counseling and testing services in Cambodia and helpful to the people who want to use these services.

Phnom Penh,

Acknowledgement

On the name of the director of the National Center for HIV/AIDS, Dermatology and STD (NCHADS), I would like to express my dept thanks to people who participated in developing of this booklet of the Voluntary Confidential Counseling and Testing in the Kingdom of Cambodia.

This booklet is providing the important information of the address and contact persons who work for Voluntary Confidential Counseling and Testing to people who need these services. I would especially thank to the following people:
